Onderdeel van:

New project in Real de la Quinta: SABINAS

Exceptional apartments and penthouses of 2, 3 and 4 bedrooms will enjoy a privileged, hillside position in the Real de La Quinta Residential Country Club Resort.

The fourth project in the Real de La Quinta Residential Country Club Resort, Sabinas is the most ambitious to date.

Enjoying an elevated position on a sloping hillside, it truly takes advantage of the natural contours to offer stunning apartments with spectacular, panoramic views across the Resort, the Lake and the coastline.

Architecturally it is a careful blend of contemporary design and traditional materials which subtly blurs the boundaries between the development and the nature within which it nestles.

The construction of Sabinas is proposed in four phases, corresponding to the 4 distinct levels of the prime hillside position upon which it will sit.

Phase I will comprise 39 apartments distributed across 4 low rise buildings offering a combination of apartments 2, 3 and 4 bedrooms - ground floors with gardens - and penthouses designed to offer the advantages of single storey living coupled with rooftop solariums to allow for sun filled living at its very best.

Close to all the proposed features of the La Quinta Residential Country Club Resort, Sabinas will dominate the skyline.

Real de La Quinta Residential Country Club Resort, a state-of-the-art lake club facility which includes a water sports lake, sandy beaches, restaurant, golf course, golf academy, tennis, paddle, swimming and a gymnasium. The community will also feature a luxury boutique hotel with spa and restaurant facilities.
