Very sunny semi-detached house with good access to the city and at the same time surrounded by nature and tranquility. This small urbanization of only 35 homes has a community pool and is closed. The house originally had 3 bedrooms, but has been extended to 4. On the ground floor it has a large kitchen with adjoining utility room, bedroom, toilet and living-dining room with access to a sunny terrace with barbecue and even offering some views of the sea. On the first floor there is the master bedroom with an en-suite bathroom and two bedrooms sharing a bathroom. In the basement there is plenty of room to use as a storage room, living area and garage. The house from 2003 is in impeccable condition and offers air conditioning in the bedrooms, electric shutters, piped music, solar panels and parking within the community. Housing costs are very low and make this property a good investment.
